

Name _____

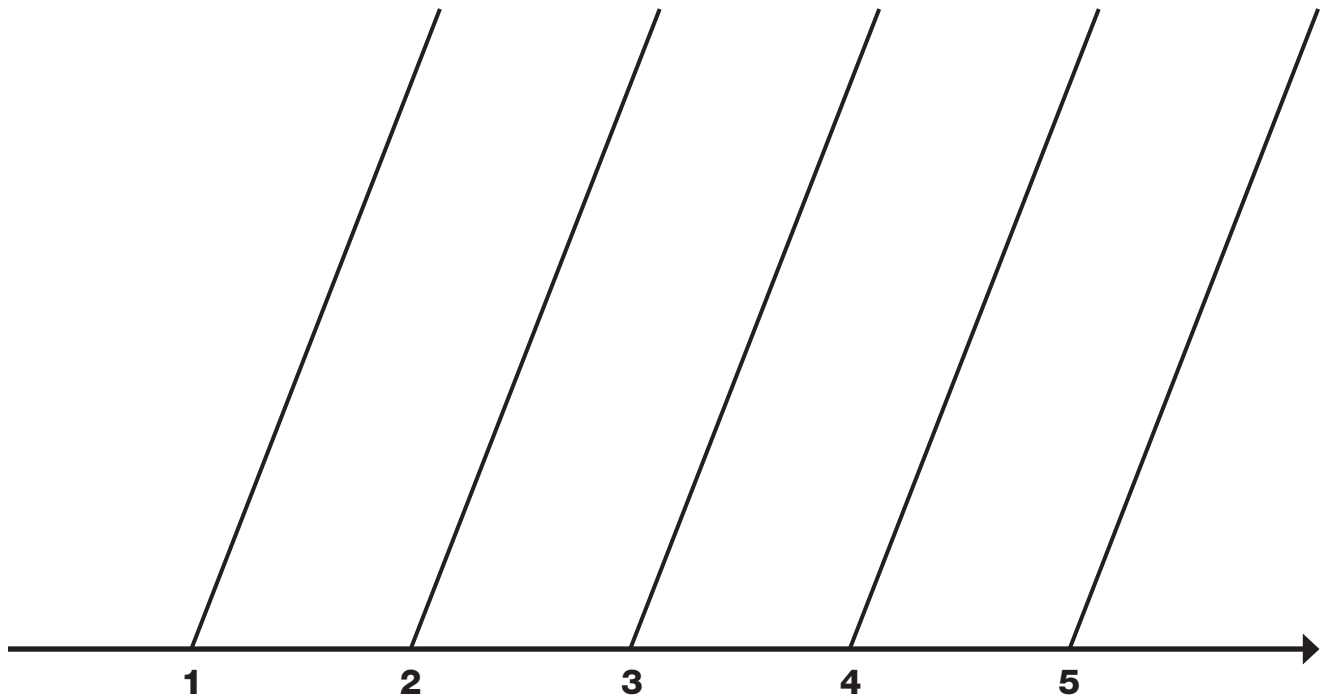

Sequence

- Events in a story occur in a certain order, or **sequence**. The sequences of events can be important to understanding a story.

Directions Read the following passage. Then complete the time line below by putting the events in the order in which they happen.

When Charlie came home from visiting his grandparents in Florida, he told his friend Bill all about his trip. He told him how fun it was to take his first airplane flight to Florida and to look down on the houses and cars from so far up.

His grandparents then took him to the beach to pick up sharks' teeth along the coast. Later in the week, he went to an amusement park to ride the roller coasters. Bill wished he could have gone to Florida too.
