

Name _____

Directions Use the table of contents to answer the questions below.

1. Would you find the title of this book before or after the table of contents?

2. The words in bold print are examples of which part of a book?

3. “Ship Vocabulary” is an example of what part of a book?

4. On what page can you begin to read about Captain Crane?

5. Where in this book might you find a definition for the word *stern*?

6. Given the topic of this book, what might you expect to find in the appendix?

7. Would this be a good source for a report on oceans? Why or why not?

8. If you wanted to read about ghost ships, where in this book might you look?

9. How would it help you to study this table of contents before reading this book?

10. If you wanted to know whether this book was more up-to-date than another book on ships, which part of the book would you consult?

Home Activity Your child learned about parts of a book and answered questions about how to use various parts. Together, open a reference book to any page. Take note of the section headings, graphic sources, and any captions. Name as many parts of a book you can find on several different pages.
