Adjectives and Articles

An **adjective** is a word that describes a noun or pronoun. An adjective usually comes before the word it describes, but it can also follow the noun or pronoun. Many adjectives answer the question *What kind?* They describe color, shape, size, sound, taste, touch, or smell. Other adjectives answer the question *How many?* or *Which one?*

What Kind? We ate fresh meat and eggs. Our appetites were good.

How Many? There were four children in the family.

Which One? That storm nearly sank the ship

A, *an*, and *the* are special adjectives called **articles**. *A* and *an* are used only with singular nouns. Use *a* before words that begin with a consonant sound. Use *an* before words that begin with a vowel sound or a silent *h*. *The* is used with both singular and plural nouns.

A kangaroo is an animal that hops.

The kangaroo jumped overboard, but the men rescued it.
