

Name _____

Sequence

- **Sequence** is the order of events or steps in a process.
- A story can be written in chronological, or time, order; or it can be organized around some ideas that make events happen.

Directions Put the following events in the order in which they occurred in the text by placing a number *before* each statement.

On the blank *after* each statement, put “T” if the statement is mainly a time-order event; put an “I” if the statement is mainly an idea-order event. If you think both time and ideas are right, put *B* for *both*. The first two are done for you.
