

Name _____

Character • Visualize

- **Characters** are the people or animals in a story. What they say and do tells you about them.
- When you read how a character acts, picture him or her. **Visualizing** will help you understand what the character is like.

Directions Read the following passage.

Missy joined Dee and Karen to write a report on butterflies. "Let's each take one part," said Missy. "I will write about butterfly migration."

But when it was time to meet again, Missy hadn't done her work. Dee and Karen wrote the report without her.

"I know how to make a good cover," said Missy. She took the report. She folded the papers in half. She slipped the papers into an envelope.

"That's not a good cover," said Dee and Karen. Dee and Karen had to make another cover for their report.

Directions Tell about Missy as you complete the graphic organizer.

What Character Says

Home Activity Your child answered questions about a story's character. The author reveals information about characters through what a character says and does. Have your child think of other familiar stories. Ask your child to tell what each character is like and why. Your child should be able to support answers with details from the stories.
