

Name _____

Diagram

A **diagram** is a special drawing with labels. It usually shows how something is put together, how its parts relate to one another, or how it works. This diagram shows some of the parts of a house.

Diagram

Directions Use the information from the diagram to answer each question.

1. How many floors does this house have?

2. How many rooms are on the second floor?

3. What appears to be the largest room in the house?

4. How many bathrooms does this house have?

5. According to the diagram what room is above the kitchen?

Home Activity Your child used a diagram to answer questions. Have your child make a drawing of one floor in your home. Encourage him or her to label each room and possibly furniture or other fixtures.
