Write a News Broadcast

On a separate sheet of paper, write what you would say to report that a volcano has erupted in the United States. Write as if you were going to report the eruption on TV news. Use as many vocabulary words as possible in your news broadcast.

Students' writing should incorporate the lesson vocabulary in a TV news broadcast that describes a volcanic eruption.

Home Activity Your child identified and used vocabulary words from *Volcanoes*. Read a news report to your child that describes a natural event, such as a volcano, earthquake, storm, or flood, that occurred somewhere in the world. Talk about the event using this week's vocabulary words.
