

Maps

Maps are drawings of places that show cities, states, and countries. Maps can show the location of landforms, bodies of water, and other important places.

Directions Look at the map of China. Then answer the questions.

1. What are two countries that border China?

Possible response: India and Nepal

2. Which river is located in southern China?

Pearl River

3. The Great Wall runs along the border of which region?

Inner Mongolia

4. The capital of China is located close to which body of water?

Pacific Ocean

5. Is Tibet a country, or is it part of China? How can you tell?

Part of China—no country border symbol shown

Home Activity Your child answered questions about a map of China. Together, look at maps of different countries. Find countries that are divided into states, provinces, regions, and so on. Look for each country's landforms, bodies of water, cities, and the capital.
