# Generalize

- To **generalize** is to make a broad statement or rule that applies to many examples.
- When you make a generalization, you look for similarities or differences among facts and examples in the text.

**Directions** Complete the graphic organizer below. Find facts and examples from the text that support the generalization.

**Directions** Write a generalization about Mexican crafts. Then write three facts that support the generalization.

**Possible responses given.**

Generalization:

7. **Most modern Mexican crafts are colorful.**

Supporting examples:

8. **Some pottery is green, blue, yellow, and mauve.**

9. **Weavers use natural dyes to make colorful baskets.**

10. **Some masks are decorated with colorful feathers.**
